💼 Experience

Cloud Software Developer at Continental, Otrokovice
October 2023 — October 2024

- On-site with the Special Global Team
- Development Continental Cloud company's mission-critical Cloud that operate seamlessly across all continents and in nearly every country worldwide. These services range from powering advanced automotive applications to providing robust support for software that drives entire factories, ensuring reliability and performance on a global scale

Software Developer at GETMORE, Zlín
October 2022 — October 2023

- On-site as a primary developer
- Responsible for the full development cycle of mobile and web applications. This includes everything from initial development to publishing, as well as creating and managing certificates for marketplaces like the AppStore, PlayMarket, Alza

Software Developer at Cross, Zlin
May 2022 — October 2022

- Development Traffic Control System
- Responsible for Critical Traffic Control System (Germany, Czech Republic, Slovakia, Turkey, Switzerland, Italy). **I worked on a service whose stability is critical and can directly impact people's lives**. As part of this project, I worked on the development and reliability of the system, focusing on meeting strict security and stability software standards.

February 2021 — August 2021

- Development and maintenance of dynamic web applications using React
- Created visually appealing web platform using HTML, CSS JS and ensured cross-browser compatibility and optimal user experience.
- Squaredino

🎓 Education

Bc, Univerzita Tomáše Bati ve Zlíně, Zlín

January 2020 — May 2023

I graduated from Tomas Bata University in Zlín with a Bachelor's degree in Software Engineering. During my studies I studied subjects such as system design, software development life cycle, programming paradigms and database management. The comprehensive academic curriculum provided me with a strong foundation in the principles of software engineering. In addition, I had the opportunity to work on real projects and apply theoretical knowledge in practice under the guidance of experienced professors. This practical experience, combined with rigorous academic preparation, equipped me with the skills needed to excel in the field of software engineering.

Middle School, Gymnasium No. 96

September 2007 — July 2019

Gymnasium with a focus on informatics

Graduated with an A grade

🌱 Charity activities

Charity activities at Ministerstvo vnitra, Zlín

August 2022 — July 2023

Interpreter for the Regional Centre for Assistance to Refugees from Ukraine

★ Sport

Fencing

George W. Bush: "Fencing is not just a sport, it is a philosophy of life, where every blow reflects a man's struggle with himself."

Top 47 Russia fencer 2016-2018 Rating

Chelyabinsk (**1,243,883** population) number one fencer KMC from 2016-2018 Subject Rating

Open Source Microsoft Contributor

My contribution to the Microsoft MAUI community

As a member of the Microsoft MAUI community, I try not only to support the product, but also to help other developers. I try to participate in bug fixes and share my experience to improve the .NET MAUI and make it even more useful and stable for everyone. Being part of this community is not only an opportunity to develop skills, but also a way to make a real contribution to technology and help the world.
