

Danil Tkachenko

Senior .NET Python Software Engineer

Profile

Senior Backend Engineer with 6+ years of experience building and scaling critical distributed systems across insurance, automotive, and traffic control domains. Core expertise in C#/.NET and Python with a strong focus on high-availability architectures, cloud-native solutions, and API design. Proven track record of delivering systems handling millions of connections across 10+ countries. Experienced in cross-functional collaboration and integrating AI/ML capabilities into production backends

Employment History

AI/ML Backend Engineer C# Python at NN Group, Prague

Oct 2024 — Present

- Built and deployed an automated OCR pipeline for insurance payment processing, reducing manual data entry by ~70% across Czech Republic operations. [Article about this](#)
- Engineered an internal AI assistant using Microsoft Semantic Kernel, automating repetitive business workflows and reducing average task completion time by 40%.
- Integrated ML models into existing .NET microservices, designing REST APIs for model inference with <300ms response times.

Cloud Software Developer C# at Continental, Otrokovice

Aug 2022 — Oct 2024

- Developed and maintained high-throughput backend services handling millions of concurrent connections in production with 99.9% uptime SLA.
- Implemented distributed caching, load balancing, and fault-tolerance patterns to ensure reliability at global scale using Azure infrastructure.
- Collaborated with 20+ engineers spanning from Mexico and Germany to Asia, contributing to architecture decisions and code reviews for core platform services.

Software Developer C# at Cross, Zlín

Jun 2019 — Aug 2022

- Developed and maintained a [eDaptiva](#) Traffic Control System deployed across 6 countries (Germany, Czech Republic, Slovakia, Turkey, Switzerland, Italy).
- Ensured system reliability under strict safety and security standards where software stability directly impacts human lives

🎓 Education

Gymnasium No. 96

Sept 2006 — Jul 2018

Bc, Univerzita Tomáše Bati ve Zlíně, Zlín

Jan 2020 — May 2023

Faculty of Applied Informatics in field: Software engineering

🏆 Certificates

Intensive English Course, Only4

Design & Patterns in Software Development, GOPAS SR

★ Public speaking

Talk .NET with .NET Team, Microsoft CZ

- Delivered a technical session ".NET OCR & Computer Vision: Accelerate Efficiency and Innovation" at a [Microsoft event](#)
- Demonstrated practical applications of Azure AI Document Intelligence and Computer Vision in .NET for automating data-heavy processes and reducing manual work in enterprise environments

🦋 Charity

Interpreter at Ministerstvo vnitra, Zlín

Aug 2022 — Jul 2023

- Served as Russian-Czech interpreter at the [Regional Centre for Assistance to Refugees from Ukraine](#), facilitating communication for hundreds of individuals during the humanitarian crisis
